

Device Under Test

Asset Number: asd
Location: asd

Serial Number: asd
Model: asd

Electrical Test Summary

TEST FAILED

Test Details:

Date: 24/02/2017
Standard:

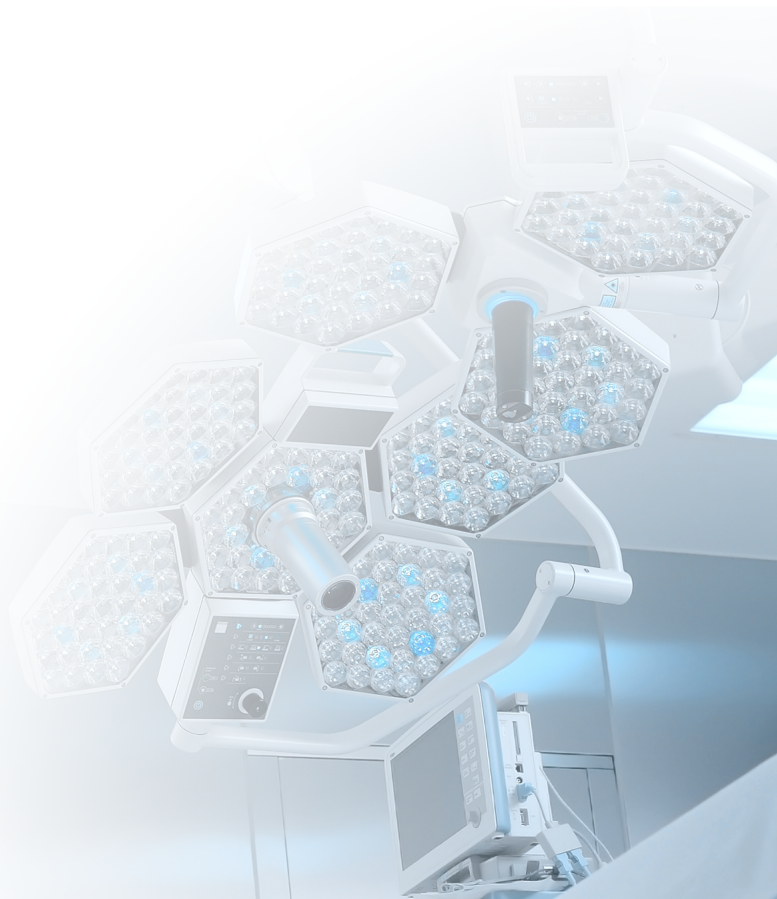

Test Instruments:

Ansurs Version

Signatures

Name: Sean Welch

Test Results

Mains Voltage - Live to Neutral				
Results:	Value	High Limit	Low Limit	Standard
Live to Neutral:				
Mains Voltage - Neutral to Earth				
Results:	Value	High Limit	Low Limit	Standard
Neutral to Earth:				
Mains Voltage - Live to Earth				
Results:	Value	High Limit	Low Limit	Standard
Live to Earth:				
Insulation Resistance - Configuration: Test Voltage: 500V				
Results:	Value	High Limit	Low Limit	Standard
Mains to Protective Earth:				
1				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Normal Condition:				
100				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Open Neutral:				
500				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Open Earth:				
500				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Normal Condition, Reversed Mains:				
100				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Open Neutral, Reversed:				
500				
Enclosure Leakage Current - Unused Applied Parts (Floating)				
Results:	Value	High Limit	Low Limit	Standard
Open Earth, Reversed:				
500
